Piarom date or Maryam date

It is one of the most familiar names of dates in Iran and the world, and it is one of the most delicious dates.

Piarom dates are semi-dry dates, elongated and long, with a very thin skin attached to the flesh. This date has a fleshy texture and is dark brown in color.

The useful life of this variety of dates is about 18 months. But it can be kept in the refrigerator for up to 24 months.

Piarom dates contain useful minerals, natural and healthy sugar, and natural proteins.

Piarom dates are one of the best dates for daily consumption and provide energy for the body throughout the day.

Raisin

Raisins are dried grapes. Raisins are rich in iron, potassium, calcium and vitamins of group b. On the other hand, raisins have antioxidant properties and prevent cell destruction. Raisins are ripe and dried grapes, which according to the type of grapes, the method and conditions of drying, and the permitted additives available. It is sold under different names in the market and like other dried fruits can be found all year round.

and it controls blood sugar in the body and causes the loss of excess water in the body, strengthens the body, makes the mouth smell good, and nutritionists believe that eating a few raisins a day helps to strengthen memory. and protects people from Alzheimer's disease.

Also, a lot of fiber in raisins helps to reduce cholesterol and improve the functioning of the intestines. In addition to that, potassium can be mentioned, which reduces blood pressure and prevents the excretion of body fluids, and there is a sufficient amount in raisins. Consuming raisins is good for health because it contains a lot of calcium. Bones are useful and prevent osteoporosis.

Types of raisins

- 1- sunny raisin
- 2- sour raisin
- 3- Golden raisin

All raisins are dried in two ways which are describe below:

Sunny: *There is a method of drying grapes that are dried by the sun.*

Sour(acidic) : *There is another method of drying grapes, which consists of soaking fresh grapes for a few seconds in a solution with a mixture of sodium carbonate, vegetable oil and water. When most people hear the name of raisin acid, they think that this raisin acid is the acid used in building materials, but this solution is different from that solution.*
